

Cookies policy

A cookie is a small file that is stored when you visit a page in the browser of your computer or mobile device, and that allows you to store and retrieve certain information about your browsing, or recognize you to facilitate access to certain services.

Some are technically essential, such as those used so that when you go to buy or access your email you do not need to be entering your username and password at each step. They are called "technical cookies", and are only used while you are on the web. If these are deactivated, you may not be able to correctly access all the contents and services of this website, or your navigation may be a little more uncomfortable if you access a space where it is necessary to recognize you.

Others are the so-called "analytical cookies", which can allow statistics about your browsing to be compiled, allowing you to know your interests in order to offer you a service more oriented to your preferences and needs. Disabling these cookies does not harm the functionality of the page, but you may not receive commercial or advertising content specifically targeted towards you.

This page does not use so-called "analytical cookies", neither its own nor those of third parties.

What cookies do we use at KIBU CONSULTING?

OWN:

Techniques:

PHPSESSID: essential session cookie, used to configure automatic and temporary session variables, inherent to the programming used on the page. Also to recognize you if you access a private area to access personal information, an administration area, or log in to make a purchase or services that require user authentication. cc_cookie_accept, cc_cookie_decline: permanent cookies to remember whether or not the user authorizes the use of cookies on the web.

Analytics:

On this page, own analytical cookies are NOT used.

OF THIRD PARTIES:

Analytics:

__utma, __utmb, __utmc, y __utmz: Of a persistent nature and ownership of Google. They are Google Analytics cookies, which allow us to know how many visitors we have, how they have reached www.kibuconsulting.co.uk, if they use a mobile or a computer, the source of the traffic, distinguish between new visits and returns, etc. If you wish, there are tools available for your browser so that Google Analytics cannot collect your information:

<https://tools.google.com/dlpage/gaoptout?hl=None>

This website DOES NOT use any type of analytical cookie for advertising or commercial purposes. If any advertising or commercial communication is displayed on the page, it is fixed, rotating, or random, with the same criteria for all visitors regardless of their identification or personal browsing.

IN NO CASE, PERSONAL DATA IS COLLECTED, NOR PROVIDED TO THIRD PARTIES, OF COURSE.

How can you disable or configure cookies in my browser?

Remember that in some cases if you disable them, your navigation of many sites may be difficult, in things such as managing content, checking email, or making an online purchase. This process is different depending on the web browser you use on your computer or mobile device, but the vast majority have tools that allow you to configure whether you want cookies to be automatically deleted when you close the application, or permanently deactivate them.

Therefore, for your convenience, we provide below some links where you can learn how to configure the most common browsers:
